PROJECTS AND EXPERIENCE

Emergency Response App (Cypics):

- Developed a mobile app for cyber complaints and emergencies using Android Studio, SQL, and Firebase, with real-time location tracking and emergency contact integration.
- Designed and coded key functionalities to enhance accessibility, ensuring seamless emergency reporting and response coordination.

Encrypting Information using Image Steganography:

- Implemented image steganography to securely embed encrypted data into image pixels, ensuring confidentiality and preventing unauthorized extraction.
- Utilized RSA encryption with Python and SQLite3 for enhanced security, enabling safe storage, retrieval, and communication of encrypted messages.
